

## COPPER SULPHATE BIOCIDES PT2 - N500 & N1000

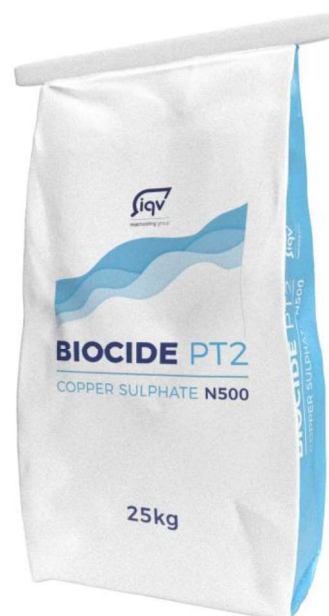

High purity active substance indicated for biocide product formulation

**COPPER SULPHATE BIOCIDES PT2** is a cupric compound manufactured specifically for the formulation of biocidal disinfectant and algicide products not intended for direct application to people or animals (EU BPR PT2).

This product is obtained from the synthesis of raw copper metal, which guarantees high purity and following product specifications:

- **Appearance:** Free flowing blue crystals
- **Solubility:** 22g/100g H<sub>2</sub>O a 25°C
- **Density:** 2.286 g/cm<sup>3</sup>
- **pH:** 4.2-4.8
- **Copper content:** 250 g/Kg min.

AVERAGE CONTENTS	
Arsenic (ppm)	<1
Cadmium (ppm)	0.8
Mercury (ppm)	<0.025
Nickel (ppm)	6.5
Lead (ppm)	18.1
Fluorides (mg/kg)	7
Nitrites (mg/kg)	<0.05

### ¡NOTES!

- For any clarification and for the correct use of IQV products, you must consult and follow the printed instructions on the label of each package.
- The product Safety Data Sheet (SDS) also should be consulted.
- Keep the product closed in a ventilated place without direct contact with sunlight and at temperatures between -5°C and 35°C.
- The Company guarantees the composition, formulation and content. The user shall be liable for any damage caused (lack of effectiveness, general toxicity, residues, etc.) by total or partial non-observance of the label instructions.
